

PetroQuip P-1 Bridge Plug

The **PetroQuip P-1 Bridge Plug's** modular, field proven design makes it a versatile tool in a variety of applications. The P-1 Bridge Plug may be set on different types of wireline setting tools. They are designed for rapid mill-up while maintaining the strength needed for high pressure and temperatures.

Features and Benefits:

- Cast iron drillable design
- Electric wireline set
- Easily millable
- One piece slips—hardened to depth of wicker only
- Small OD for speed and safety when running
- Convertibility reduces inventory requirements
- For temporary or permanent service
- Metal back-ups increase the pressure integrity of the bridge plug

PetroQuip P-1 Bridge Plug

Casing		Plug	Setting Range		Pressure Rating (psi)	Max Temp (°F)
OD (in)	Wt. (lbs/ft)	OD (in)	Min (in)	Max (in)		
2-3/8	3.3 - 5.9	1.71	1.867	2.107	10,000	325
2-7/8	6.4 - 5.9	2.10	2.280	2.563
